TITLE : CAPSULE CONTAINING COFFEE
POWDER SEALED THEREIN FOR
COFFEE EXTRACTOR

ABSTRACT : PURPOSE: To obtain a capsule containing coffee powder sealed therein for a coffee extractor without causing troublesomeness such as the loss in flavor of the coffee powder or sticking of coffee bean pulp to the extractor and complicatedness such as separate taking out of the capsule from a package and charging of the capsule into the extractor.

CONSTITUTION: The capsule containing coffee powder sealed therein is obtained by sealing coffee powder 2 sandwiched between an upper and a lower filters 3 and 3 in a cylindrical capsule body 1 capable of holding the airtightness, respectively sealing the an upper opening (1a) and a lower opening (1b) of the capsule body 1 with an upper hermetically sealing sheet 4 and a lower hermetically sealing sheet 5, inserting a nozzle 10 for injecting hot water of the coffee extractor from the upper hermetically sealing sheet 4 into the capsule body 1, injecting the hot water for extraction thereinto, extracting the coffee (C) from the coffee powder 2 and enabling the lead of the resultant coffee (C) from an acceptor 11 inserted from the lower hermetically sealing sheet 5 into the capsule body 1 to the outside.
